## CITY OUD

SEPTEMBER 2010

### **OUD is the new black in the perfume world.**

Sacred as an essential component of Arabic perfumes, it is so precious that it is said to worth its weight in gold!

In today's world, the old is back as a new must have, a vintage wave, and oud is no exception, bringing its magic notes to the noses of the western consumers and brands.

**DUETO PARFUMS** first creation "CITY OUD" is a modern inspiration around oud, layering the nose experience from saffron & cinnamon to rose & cedarwood, to finish on a smooth longlasting oud & amyris touch. A fusion urban oud, in other words.

The precious scent is captured in an iconic shape bottle & dramatic cap, both in black code. Red cities encircle the matte black glass reminding us of the cosmopolitan trend of this fragrance. In case we forgot the high value of oud, 'CITY OUD' is gold printed among the cities names.

'CITY OUD' is a unisex perfume for all of you. Enjoy!
